Technology and software, science, books, sport

Profile

I'm a passionate and detail-oriented Front-End Developer. I use my knowledge to create user-friendly web applications for various tasks. I care a lot about the quality of the code and what I create. I have over a year experience in creating responsive websites and web applications using HTML, CSS, JavaScript (ES6) and React.

Experience

Front-End Developer (Web Applications)

December 2020 – Present

-
  - Engineered and maintained major features of personal web apps using JavaScript (ES6);

Front-End Developer (Websites)

March 2020 – December 2020

- Developed and maintained code for client websites primarily using HTML, CSS, Sass, JavaScript;
- Manually tested sites in various browsers and mobile devices to ensure cross-browser compatibility and responsiveness;
- Wrote modern, performant, maintainable code for websites;
